

Get ready for the 2009 season!

<http://robofest.net>

Perfect for beginners!

<http://robofest.net>

Robofest is a competition of autonomous robots - programmed to act independently, *not remote-controlled* - that encourages students to have fun while learning the principles of computer science, technology, engineering, math, and physical science.

Students design, construct and program the robots!

Summer RoboSumo

- ⌚ Introductory level day camp.
- ⌚ Entering 5th-8th grade in the fall 2008.
- ⌚ Teams of not more than three per robot.
- ⌚ Registration fee: \$60 (*limited to 15 students, and may be cancelled if enrollment too low*)
- ⌚ Experienced camp leaders and staff
- ⌚ Final day includes a competition
- ⌚ NXT robot and laptop provided
- ⌚ 2 days, 9 am -3pm; Session 1, 6/18-19; Session 2, 6/23-24

- ⇒ Robofest sparks student interest in science, technology, engineering and mathematics
- ⇒ Robofest encourages team work & helps students develop critical thinking skills
- ⇒ Robofest participation increases students' math and science knowledge/scores
- ⇒ Encourages students to pursue careers in engineering & science related fields
- ⇒ Robofest will recognize your student's achievement with medals and personalized certificates of achievement
